

Washington High School Assessments and Assessment Graduation Requirements

September 8, 2016

Scores for federal accountability are reported when a student is in the 11th grade. Where applicable, a student may test in an earlier grade. If a passing score (level 3 or level 4) is obtained, the score will be banked and reported when the student is in 11th grade (ELA and Math) or 10th grade (Biology).
